APPROPRIATIONS CATEGORY:	FY 2004 Program Funds
OBLIGATION AMOUNT:	\$109,773,000

In accordance with section 609 (i)(1) of the Millennium Challenge Act of 2003, as amended (the *Act*, Pub. L. 108-199, Division D), this is to advise that the Millennium Challenge Corporation (*MCC*) has made a determination to amend the four-year, \$109,773,000 Millennium Challenge Compact with the Republic of Madagascar signed on April 18, 2005 (the *Compact*) to extend its term by one year, and to make certain technical corrections to the Compact. The amendment will not change the scope or total amount of funding previously obligated for the Compact program and, in accordance with section 609(j) of the Act, will not extend the duration of the Compact beyond five years.

A detailed summary of the proposed extension of assistance under the Compact follows.

**AMENDMENT TO MILLENNIUM CHALLENGE COMPACT  
BETWEEN  
THE UNITED STATES OF AMERICA, ACTING THROUGH  
THE MILLENNIUM CHALLENGE CORPORATION  
AND  
THE GOVERNMENT OF THE REPUBLIC OF MADAGASCAR**

The Board of Directors of the Millennium Challenge Corporation (*MCC*) has approved an amendment (the *Amendment*) to the existing approximately \$109.8 million, four-year Millennium Challenge Compact between the United States of America, acting through MCC, and the Government of the Republic of Madagascar (the *Compact*).

**Background**

The Compact was signed April 18, 2005, entered into force on July 27, 2005 and, under its original terms, would have terminated on July 26, 2009. It is the only compact entered into by MCC with a four-year rather than a five-year term. The main objectives of the Compact consist of raising incomes in rural areas by increasing land rights security and improving land administration capacity, expanding the financial sector, and increasing investment in farms and other rural businesses in five high-potential geographic zones. The extension of the Compact term is intended to allow a more complete achievement of the Compact's goals and enhance the sustainability of the investments being made under the Compact.

**Scope of the Amendment**

The Amendment extends the term of the Compact for a single additional year without making changes to either the scope of program activities or the level of funds currently obligated under the Compact. The Amendment also conforms the Compact's administrative winding up provision to the related provision in other compacts that have been entered into since the Compact was signed. Finally, the Amendment updates information with respect to the title of the MCC principal representative under the Compact.

**Reasons for the Amendment**

The Government of Madagascar is unlikely to achieve all of the project objectives as defined in the Compact by its original termination date in July 2009. While MCC's and the Government of Madagascar's efforts continue to keep Compact objective realization moving forward and are resulting in increased disbursement rates, the time allotted for implementation of several major contracts is insufficient to reach certain targets. In certain cases, MCC was not willing to allow construction contracts to be entered into absent a five-year term for the Compact. With an extension of one year to the term of the Compact, the likelihood of achieving project objectives will improve substantially, and the probability of sustaining these activities once Compact funding ceases will increase.

The fifth year extension will better position the Government of Madagascar to fully implement the Compact's planned activities, achieve the targets set forth in the Compact's monitoring and evaluation plan, and ultimately better allow for the sustainable poverty reduction impact contemplated by the Compact.

Examples of the implementation activities that will be supported by the additional year of the Compact term include the following.

#### **A. Land Tenure Project**

The extended term will provide the Compact's Land Tenure Project time to better implement activities related to the modernization and decentralization of land services and information gathering and dissemination in Madagascar. One component of these activities is the construction of decentralized land offices in beneficiary communities and the rehabilitation or new construction of regional Land Administration offices. The fifth year will reduce the risk that planned construction will not be completed and provide time for an adequate guarantee period following the completion of construction. The extended term will also help ensure the sustainability of the reforms achieved and implemented through the Land Tenure Project by allowing additional time for the provision of adequate technical assistance to strengthen the institutional and human resource capacity of the land services providers at the regional and local levels.

#### **B. Finance Project**

The amended Compact term will provide the time necessary to allow the largest activity in the Finance Project – the creation of a national payment system – to be more effectively completed. The additional year will provide the time necessary to build the Central Bank of Madagascar's technical capacity to operate and sustain the system. The extended Compact term will also allow adequate time for the construction of the new branches for the Madagascar National Savings Bank contemplated by the Compact, a critical activity aimed at providing low-cost savings accounts to the people of four districts in rural Madagascar where such accounts currently are unavailable.

#### **C. Agriculture Business Investment Project (ABIP)**

The one-year extension of the Compact term will provide ABIP time to broaden and deepen its activities related to increasing farm and small business revenue and investment opportunities. It will provide an opportunity for farmers to work with project staff to adopt improved production techniques during additional crop production cycles. In addition, it will provide time for an adequate guarantee period following the completion of the construction of the agricultural business centers that will serve as regional hubs for post-Compact technical assistance. The additional year will also allow the agricultural business centers to further test and strengthen their operational model to better ensure that delivery of services to farmers, associations and rural small enterprises can be sustained into the future.
