

# Millennium Challenge Corporation

---

Reducing Poverty Through Growth

Subsequent to the Burkina Faso Threshold Program approval, the Millennium Challenge Corporation began transmitting to all appropriate Congressional committees (as defined by the Millennium Challenge Act of 2003) a courtesy notification on each threshold program being considered by the Board of Directors. Continuing our efforts to be transparent, we are posting this substitute notice in the location a courtesy notification would have been posted had we done one in July when the Board considered the Burkina Faso Threshold Program.

This **fact sheet** outlines Burkina Faso's Threshold Country Plan.
