MILLENNIUM  
CHALLENGE CORPORATION  
UNITED STATES OF AMERICA

# Summary

This report to Congress is provided in accordance with section 608(a) of the Millennium Challenge Act of 2003, as amended, 22 U.S.C. §§7701, 7707(a) (the “Act”).

The Act authorizes the provision of Millennium Challenge Account (MCA) assistance for countries that enter into a Millennium Challenge Compact with the United States to support policies and programs that advance the progress of such countries to achieve lasting economic growth and poverty reduction. The Act requires the Millennium Challenge Corporation (MCC) to take a number of steps in selecting countries with which MCC will seek to enter into a compact, including (i) determining the countries that will be eligible for MCA assistance for fiscal year 2010 (FY10) based on a country’s demonstrated commitment to (a) just and democratic governance, (b) economic freedom, and (c) investments in its people; and (ii) considering the opportunity to reduce poverty and generate economic growth in the country. These steps include the submission of reports to the congressional committees specified in the Act and the publication of notices in the *Federal Register* that identify:

- The countries that are “candidate countries” for MCA assistance for FY10 based on their per capita income levels and their eligibility to receive assistance under U.S. law and countries that would be candidate countries but for specified legal prohibitions on assistance (section 608(a) of the Act);
- The criteria and methodology that the MCC Board of Directors (Board) will use to measure and evaluate the relative policy performance of the “candidate countries” consistent with the requirements of subsections (a) and (b) of section 607 of the Act in order to determine “MCA eligible countries” from among the “candidate countries” (section 608(b) of the Act); and
- The list of countries determined by the Board to be “MCA eligible countries” for FY10, identification of such countries with which the Board will seek to enter into compacts, and a justification for such eligibility determination and selection for compact negotiation (section 608(d) of the Act).

This report is the first of three required reports listed above.

## Candidate Countries for FY10

The Act requires the identification of all countries that are candidates for MCA assistance for FY10 and the identification of all countries that would be candidate countries but for specified legal prohibitions on assistance. Sections 606(a) and (b) of the Act provide that for FY10 a country shall be a candidate for the MCA if it:

- ★ Meets one of the following two income tests:
  - \* Has a per capita income equal to or less than the historical ceiling of the International Development Association eligibility for the fiscal year involved (or \$1,855 gross national income (GNI) per capita for FY10) (the “low income category”); or
  - \* Is classified as a lower middle income country in the then most recent edition of the World Development Report for Reconstruction and Development published by the International Bank for Reconstruction and Development and has an income greater than the historical ceiling for International Development Association eligibility for the fiscal year involved (or \$1,856 to \$3,855 GNI per capita for FY10) (the “lower middle income category”); and
- ★ Is not ineligible to receive U.S. economic assistance under part I of the Foreign Assistance Act of 1961, as amended, (the “Foreign Assistance Act”), by reason of the application of the Foreign Assistance Act or any other provision of law.

Pursuant to section 606(c) of the Act, the Board has identified the following countries as candidate countries under the Act for FY10. In so doing, the Board has anticipated that prohibitions against assistance as applied to countries in the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2009 (Div. H, Pub. L. 111-8) (FY 2009 SFOAA), will again apply for FY10, even though the Department of State, Foreign Operations, and Related Programs Appropriations Act for FY10 has not yet been enacted and certain findings under other statutes have not yet been made. As noted below, MCC will provide any required updates on subsequent changes in applicable legislation or other circumstances that affect the status of any country as a candidate country for FY10.
