### Common Indicator Definitions:

**Output Indicators**

- (WS-1) Prevalence of diarrhea: The percentage of individuals reported as having diarrhea in the two weeks preceding the survey.

**Process Indicators**

- (WS-2) Percent disbursed of water and sanitation feasibility and design contracts: The value of all signed feasibility, design, and environmental contracts, including resettlement action plans, for water and sanitation investments using 609(g) and compact funds.

**Outcome Indicators**

- (WS-3) Temporary employment generated in water and sanitation construction: The number of people temporarily employed or contracted by MCC-funded construction companies to work on construction of water or sanitation systems.

### Water Supply, Sanitation and Hygiene Common Indicators:

**Common Indicator Definitions:**

- (WS-5) Value of signed water and sanitation feasibility and design contracts: The value of all signed feasibility, design, and environmental contracts, including resettlement action plans, for water and sanitation investments using 609(g) and compact funds.

**Common Indicator Definitions:**

- (WS-6) People trained in hygiene and sanitary best practices: The number of people who have completed training on hygiene and sanitary practices that block the fecal-oral transmission route.

**Common Indicator Definitions:**

- (WS-7) Water points constructed: The number of non-networked, stand-alone water supply systems constructed, such as: protected dug wells, tube-wells / boreholes, protected natural springs and rainwater harvesting / catchment systems.

**Common Indicator Definitions:**

- (WS-8) Non revenue water: The difference between water supplied and water sold (i.e. volume of water "lost") expressed as a percentage of water supplied.

**Common Indicator Definitions:**

- (WS-9) Continuity of service: Average hours of service per day for water supply.

**Common Indicator Definitions:**

- (WS-10) Operating cost coverage: Total annual operational revenues divided by total annual operating costs.

**Common Indicator Definitions:**

- (WS-11) Volume of water produced: Total volume of water produced in cubic meters per day for the service area, i.e. leaving treatment works operated by the utility and purchased treated water, if any.

**Common Indicator Definitions:**

- (WS-12) Access to improved water supply: The percentage of households in the MCC project area whose main source of drinking water is a private piped connection (into dwelling or yard), public tap/standpipe, tube-well, protected dug well, protected spring or rainwater.

**Common Indicator Definitions:**

- (WS-13) Access to improved sanitation: The percentage of households in the MCC project area who get access to and use an improved sanitation facility such as flush toilet to a piped sewer system, flush toilet to a septic tank, flush or pour flush toilet to a pit, composting toilet, ventilated improved pit latrine or pit latrine with slab.

**Common Indicator Definitions:**

- (WS-14) Residential water consumption: The average water consumption in liters per person per day.

**Common Indicator Definitions:**

- (WS-15) Industrial/Commercial water consumption: The average amount of commercial water consumed measured in cubic meters per month.

**Common Indicator Definitions:**

- (WS-16) Water supply, Sanitation and Hygiene Common Indicators: A focus on results is one of the core principles on which the Millennium Challenge Corporation (MCC) was founded. Within country-specific plans, MCC uses common indicators to aggregate results across countries within certain sectors. MCAs are not required to report on certain common indicators where collecting that data is too costly or infeasible given existing data collection plans.

**Common Indicator Definitions:**

- (WS-17) Prevalence of diarrhea: The percentage of individuals reported as having diarrhea in the two weeks preceding the survey.

**Common Indicator Definitions:**

- (WS-18) Industrial/Commercial water consumption: The average amount of commercial water consumed measured in cubic meters per month.
