

## Education Common Indicators:

A focus on results is one of the core principles on which the Millennium Challenge Corporation (MCC) was founded. Within country-specific plans, MCC uses common indicators to aggregate results across countries within certain sectors. MCAs are not required to report on certain common indicators where collecting that data is too costly or infeasible given existing data collection plans.

All program data are as of March 10, 2015. Data are preliminary and subject to adjustment. † Grey shading indicates closed-out Compacts; data revision is not expected for these Compacts. Indicators in this Results Framework may be added, removed, or modified as MCC's investments in education evolve over time. ‡ All MCC education programs have as their long-term end goal an increase in individual or household income and a corresponding decrease in poverty. † All financial data is of December 10, 2014.

\*Aggregated totals may have declined due to a review of closed Compact data in April 2015 to ensure that all data reported corresponded with MCC's Common Indicator Guidance.

\*\*Gender totals may not match overall totals due to lack of gender counting in earlier compacts.

Notes: Don't type commas into numbers, the formulas won't pick up the value. Number formatting should assign commas automatically.

## Common Indicator Definitions:

**(E-1) Value of signed educational facility construction, rehabilitation, and equipping contracts:** The value of all signed construction contracts for educational facility construction, rehabilitation, or equipping (e.g. information technology, desks and chairs, electricity and lighting, water systems, latrines) using compact funds.

**(E-2) Percent disbursed of educational facility construction, rehabilitation, and equipping contracts:** The total amount of all signed construction contracts for education facility works or equipping divided by the total value of all signed contracts.

**(E-3) Legal, financial, and policy reforms adopted:** The number of reforms adopted by the public sector attributable to compact support that increase the education sector's capacity to improve access, quality, and/or relevance of education at any level, from primary to post-secondary.

**(E-4) Educational facilities constructed or rehabilitated:** The number of educational facilities constructed or rehabilitated according to standards stipulated in MCA contracts signed with implementers.

**(E-5) Instructors trained:** The number of classroom instructors who complete MCC-supported training focused on instructional quality as defined by the compact training activity.

**(E-6) Students participating in MCC-supported education activities:** The number of students enrolled or participating in MCC-supported educational schooling programs.

**(E-7) Graduates from MCC-supported education activities:** The number of students graduating from the highest grade (year) for that educational level in MCC-supported education schooling programs.

**(E-8) Employed graduates of MCC-supported education activities:** The number of MCC-supported training program graduates employed in their field of study within one year after graduation.
