

COMPACT GOAL

MCC's Board of Directors selected Tanzania eligible to develop a compact in December 2012. Using the results from the growth diagnostic developed under the Partnership for Growth (PFG) initiative, the Government of Tanzania (GoT) submitted initial concept notes in September 2013, focused on improving the technical and operational viability of the public power utilities; expanding access to modern electricity; and improving segments of the secondary road network to unleash the economic potential of key agricultural regions. These concept notes were finalized in April 2014 and followed by due diligence. The results of this due diligence will inform the MCC and GoT efforts to narrow the program scope and develop a request for 609(g) assistance funding, which will be used to further study, design and develop the compact program. The team plans to request 609(g) funding in the coming months.

COMPACT AT A GLANCE

Eligibility Notification.....	12-19-2012
Constraints Analysis.....	09-13-2011
Concept Note Received.....	12-17-2013
Eligibility Notification.....	12-10-2013

Eligibility Notification	
12-19-2012	MCC Board of Directors selected Tanzania as eligible to develop a second compact.
Constraints Analysis	
09-13-2011	Tanzania completed an economic constraints analysis in FY 2012 under the Partnership for Growth (PFG) initiative, which highlighted several constraints to growth including limited access to affordable, reliable electricity and limited market access in key agricultural regions, among other concerns.
Concept Note Received	
12-17-2013	In September 2013, the GoT submitted initial concept notes for projects to improve the technical and operational viability of the public power utilities, Tanesco and Zeco; expand access to modern electricity; and improve segments of the secondary road network that will help unleash the economic potential of key agricultural regions. These concept notes were further refined in a revised submission in December 2013.
Eligibility Notification	
12-10-2013	The MCC Board of Directors reselected Tanzania for eligibility in FY2014.
